2019
Hawai'i Annual Code Challenge (HACC)
To foster community resilience while building on the foundation set forth in the Aloha+ Challenge's sustainability goals.

Challenge Title	Digital Storytelling for Sustainability via the Aloha+ Challenge
Department / Organization	Hawai'i State Enterprise Technology Services (ETS) and Hawai'i Green Growth
Contact Name	Caroline Julian-Freitas, Chelsea Harder
Contact Phone & Email	Caroline.Julian-Freitas@hawaii.gov; chelsea@hawaiigreengrowth.org

Impact on Government	Impact on Community
Departments will benefit from having more efficient ways to generate data summaries for reports, talking points, presentations through automatic collating and data visualization generation.	Communities will benefit from this through the ability to develop and communicate their story through data from the Aloha+ Dashboard.

Challenge Information	
Background of Problem	Data is a great way to make a point and tell a story. However, to gather, vet, and visualize data and content for reporting and presentations is time consuming. This challenge seeks to develop a mechanism for automatic report generation through pre-vetted authoritative data via the Aloha+ Challenge Dashboard.
Thoughts on what is needed (include department platform)	Platform (if any): Aloha+ Dashboard (open data platform on Hawaii.gov site) Thoughts: The data on the Aloha+ Dashboard is vetted through 500+ cross-sector stakeholders and Aloha+ signatories (Governor, County Mayors, and Office of Hawaiian Affairs)
Project Value (Department - Government - Community - Industry)	Ability to generate reports efficiently using choice authoritative from vetted source.
Department Data Available	State and county-level data on Aloha+ Dashboard (https://dashboard.hawaii.gov/aloha-challenge)

To be completed by the HACC Planning Committee	
Community/Industry Data Available	
Potential Community/Industry Co-
